## Accounting Technology Magazine Honors Top AccountMate Authorized Partners

**PETALUMA, CA (December 30, 2008)–**

Three top AccountMate Software Channel Partners have been named to the prestigious list of Accounting Technology magazine's 2008 Pacesetters. They are ISYS LLC, NexLAN LLC and Tamlin Software Developers, Inc.

These long-time AccountMate Elite Business Partners have been recognized by Bob Scott, Editor for Accounting Technology, whose goal for naming Pacesetters is "to honor firms of quality that carry accounting software as the central part of their product line." ISYS LLC, NexLAN LLC and Tamlin Software more than demonstrate this commitment for quality by their exemplary customer satisfaction and their participation in building the accounting software profession—both benchmarks for being named Pacesetters.

ISYS LLC in their Torrance, California office has been selling AccountMate software for over 18 years. As well as having a substantial number of AccountMate installations, they also develop and support a robust job cost add-on module. This integrated job cost solution is also offered up to other AccountMate resellers to complement their product offerings. Vernon Ikeler, President of ISYS LLC, is committed to providing modifiable accounting solutions.

NexLAN LLC in Danville, Illinois has been selling and supporting AccountMate clients for seven years. Kevin Stroud, President of NexLAN, is energized around assuring that clients are able to receive the type of accounting software that can be tailored to meet their own specific needs. His team of programmers are highly skilled in taking client requirements and customizing the AccountMate software to assure those requirements are met. NexLAN's

business philosophy about being a full-service accounting software consultancy is paying off for NexLAN and reaping benefits for their clients.

Tamlin Software Developers, Inc. is headquartered in Dallas, Texas. Linda Bryan, Tamlin's President and CEO, has recently been expanding Tamlin's business by acquisition in order to provide an experienced sales and technology base. Growth for Tamlin is also a result of their modifiable shop floor and other manufacturing vertical solutions that integrate with AccountMate accounting software. Tamlin products have been highly publicized since they assure FDA mandated traceability for food and drug manufacturers.

These three 2008 Pacesetters set the bar for excellence in the accounting software marketplace. AccountMate Software Corporation is proud that these three companies are part of the AccountMate Channel.

**About AccountMate Software Corporation**

For 25 years, AccountMate Software Corporation has been producing a dynamic customizable accounting software system. Especially important in this time of economic uncertainty is the way it can help better manage expensive inventories and give companies a competitive edge.

Founded in 1984, AccountMate develops and markets fully modifiable business accounting software. Systems range from single user versions to those that support over hundreds of users simultaneously. AccountMate software is distributed exclusively through a worldwide channel of authorized solution providers. AccountMate can be reached at (800) 877-8896 or at [www.accountmate.com](http://www.accountmate.com).
