AccountMate Enterprise 2016 Provides Flexible Pre-payments and Allows for Authorization of Multiple Outstanding Invoices

AccountMate Enterprise 2016 Delivers Powerful New Accounts Payable and Bank Reconciliation Functionality

AccountMate Software Corporation has released the second version of its newest product line, AccountMate Enterprise 2016. Using the latest Microsoft .NET technology, AccountMate continues to roll out its next generation accounting software system. The latest release is adding two modules, Accounts Payable and Bank Reconciliation, to round out the offering which also includes General Ledger and System Manager.

This upgraded version also includes a Report Designer and Software Developer Kit at no additional charge. Both enable the AccountMate Solution Providers to extend tailored solutions and add reports for their clients. For an additional fee, source code is also available. AccountMate Software is known for its highly-customizable accounting software system. This latest version of AccountMate Enterprise 2016 continues this legacy.

Some of the most recent feature highlights are:

- Quick determining of Real Time Cash Position for each bank account and total unreconciled amounts
- Managing bank accounts that allows authorized users to set up an unlimited number of bank accounts and specific the currency in which transactions are recorded for each one
- With the prepayment entry feature, it allows for issuing payments even before a vendor's invoice is received
- Simultaneous authorizing of payment for multiple outstanding invoices and pre-payments can be accommodated. If funds are limited, invoices can be prioritized by various criteria AccountMate will automatically calculate the early payment discount and payment amounts for each invoice
- Supporting of multi-currency transactions in both the Bank Reconciliation and the Accounts Payable modules to record using the currency code's exchange rate on the designated transaction date to ensure consistency and accuracy

This AccountMate Enterprise 2016 is available for new clients as well as provides an upgrade path for current AccountMate clients running SQL, Express and LAN. This platform is the newest product line for AccountMate. It continues to add functionality and value that clients have been receiving from AccountMate since 1984.
