AccountMate Receives 100% Positive Response on Microsoft Survey

PETALUMA, CA (December 3, 2009)— AccountMate Software Corporation received an outstanding score on the latest Microsoft-sponsored Net Satisfaction and Customer Loyalty survey. The five key performance indicators were in the areas of Customer Loyalty Segmentation, Revenue Impact, Loyalty and Overall Performance. AccountMate is proud to announce that it received a PERFECT 100% score in the Net Satisfaction and Customer Loyalty areas as a direct response from their surveyed customers. These results bode well for AccountMate Software products and its services as well as validating the value of the strong Microsoft development tools that our software products employ.

In November, Microsoft sponsored this independent survey to enable software manufacturers to get information on the rate of satisfaction and loyalty of their own customers. This result is meant to empower an

organization by being able to review their customers' feedback.

AccountMate Software has been a Microsoft Solution Partner for the past 9 years and long-standing Microsoft® Gold Certified Development Partner. AccountMate is a leading supplier of Business Financial Software.

About AccountMate Software Corporation
