## AccountMate releases latest version of LAN Accounting Software

**PETALUMA, CA (September 12, 2008)—**

Today AccountMate Software Corporation released AccountMate 7 for LAN with more than 200 enhancements over the prior version.

Thousands of growing companies have been successful employing this software package to manage their day-to-day operations since AccountMate introduced this software platform 13 years ago.

Between the flexibility inherent in the product and the extensive enhancements that continue to be added, this business asset continues to help companies manage their bottom line. The latest upgrade of AccountMate 7 for LAN includes more than 200 enhancements improving functionality and reports.

**Some of these changes include:**

- Executive Summary providing a snapshot of a company's current financial condition
- Supports workstations running on the Windows Vista operating system
- Comprehensive password policy settings as recommended by banks and accountants for Sarbanes-Oxley compliance

- View of real-time cash position by displaying current book balance for each bank account
- New Upsell Management module allows for the sales of complementary accessories
- Allow copy and paste from Excel into the General Ledger
- Customized check printing on blank check stock
- Enhancements to the Payroll module for supporting unlimited user-definable tiers for each paid leave code, accommodates each company's local tax feature requirements, customize ACH setting and more
- Addition of over 100 reports that have either been modified or added throughout the system

AccountMate software users benefit from the robust accounting functionality as well as the assurance from AccountMate that this particular AccountMate 7 for LAN version will be supported through at least 2016. This follows AccountMate's standard maintenance policy of offering technical support for at least eight years after a product is released.

AccountMate Software Corporation products are sold and supported through experienced

authorized AccountMate Solution Providers. This adds to the assurance that clients will get the products and resources that are needed to meet their financial management challenges.

This latest AccountMate 7 for LAN version continues to incorporate a user-friendly interface and retains the same consistent process flow that clients have come to expect from AccountMate.

**About AccountMate Software Corporation**

Since 1984, AccountMate Software Corporation has provided customers with powerful and flexible accounting and business management software. AccountMate provides the most stable and technologically innovative modifiable accounting solutions for the mid-market. The accounting systems are sold by the module which enables clients to acquire the software they initially need and add modules as their business needs increase. The availability of source code makes this software highly modifiable so that it can be adapted to any changing business environment.
