Diversified Billing

Product Description

The Diversified Billing system is the most complete, comprehensive and easy-to-use utility billing solution on the market today. Available in the cloud or for your LAN, it includes a guided process to calculate, create, verify and print – or email – your bills. Guided processes.

A robust customer portal accepts online payments and provides customers quick access to their consumption, billing and payment histories.

Automated assists speed payment processing, while a powerful customer information system puts ALL a customer's account information at your fingertips on a single screen.

Company Profile

Diversified Technology Corporation is a software development and support organization that focuses on helping municipalities and municipal authorities leverage advances in technology to better serve their citizens while running their operations more efficiently and effectively.

Based in Central Pennsylvania, the company is privately owned and employs a staff of 25 engineers and customer support specialists. It has been in business for almost 20 years and supports hundreds of clients across the county.

Some 400 municipalities and public and private utilities rely on the company's Diversified Billing system to generate and distribute more than 8 million bills annually.

Third party software included on this site has not been tested and is not endorsed by AccountMate Software. Technical support, warranties, and compatibility are the responsibility of the issuing company.

KEY FEATURES

- Available as a Cloud subscription or traditionally licensed for your LAN. Both versions are functionally identical.

- Flexible enough to handle ANY type of repetitive billing. Utility bills. Tax bills. Special assessments. License renewals. And more.

- Licensed based on the number of customers billed, not on the number of users or the number of services billed. This means that one subscription or license to Diversified Billing can serve an entire municipality at NO ADDITIONAL COST.

- Industry leading training and support.

PRODUCT COMPATIBILITY

Integrates with any version of General Ledger through export of journal entries for AccountMate SQL v10 – current and AccountMate LAN v9 - current.
